
Covert ISPE

by Gary S. Flom, MSPE

Find a word that fits each definition and contains the letter sequence “ISPE.”

For example, a 13-letter word that means “having more than one wavelength on the electromagnetic spectrum,” would be “multispectral.”

1. A 7-letter word that means “to speak with soft, hushed sounds.”
2. A 6-letter word that means someone pronounced the “s” and “z” sounds as “th” sounds.
3. An 8-letter word that means “to deal out or distribute.”
4. A 6-letter word that means “to drive off.”
5. An 8-letter word that means “pays out.”
6. An 8-letter word that means “to send off in various directions.”
7. A 7-letter word that means “a drawer in a refrigerator.”
8. A 13-letter word that means “not understood correctly.”
