
Soaring

by James Richard Hansen, FSPE

for our marriage

When we stroll in sunlight,
its brilliance is surpassed
only by the resplendence
of our love.

When we walk under the moon,
its glow creates a mood
we need no help creating.
Our warmth reaches to the moon,
creating a midnight sun
that overcomes any darkness
in our lives.

We are filled with love
we never knew we could feel,
and passion that leaves us
breathless.

We breathe each other
and soar to the peak
of ecstasy and fulfillment.

Our bond will last forever,
not because we promise,
but because no power
in the cosmos
could tear us apart.

It is written in our hearts. Ω
