

## Free Download of Book on Giftedness

by Kathy Kendrick, RFSPE

Thousander Noks Nauta reports that the following book on the topic of giftedness is now available as a free download. The book is written in Portuguese and Spanish, and there are some contributions in French and English. Noks wrote the introductory chapters for both volumes, and author Adriana Mendonca prepared the following press-release announcement:

### **International Multidisciplinary Book on Giftedness Is Launched by Brazilian, Portuguese, and Angolan Universities**

On Saturday, August 14th, *Altas Habilidades: Saúde, Desporto e Sociedade (High Abilities: Health, Sport and Society)* was launched to the world via Meet. The collection of 21 chapters, divided into two volumes, was published by Cultura Acadêmica and Fi Editora. The chapters, written by academics and professionals from different backgrounds, approaches, ages, career stages, geographical origins, and languages, are organized into six major areas: psychology, education, sports, neuroscience, law, and experience reports.

The work has the seal of the UNESCO Chair in Youth, Education, and Society and the support of educational institutions from Brazil (Universidade Estadual Paulista, “UNESP”), Portugal (Instituto de Estudos Superiores de Fafe, “IESF”; Centro de Investigação Desenvolvimento e Inovação, “CIDI”; Fundação Inatel; and the consultancy firm, Memories and Matters), and Angola (Instituto Superior Politécnico de Benguela, “ISPB”). This collaborative work was carried out by more than a hundred people—many of whom are gifted themselves—over almost a year and a half during the pandemic, revealing very fruitful possibilities of interaction, cooperation, and production.

You can download both volumes of *Altas Habilidades: Saúde, Desporto e Sociedade* for free at <https://www.editorafi.com/219altashabilidades>.

Thank you, Noks Nauta, for sharing this information with our Thousanders.
